

What our customers have to say!

These are customers who voluntarily wrote these letters as we have never asked for letters of recommendation from our customers, for these people to take time from their busy schedule to write these says a lot in itself.

Dear Gordon,

I just had to write and tell you how much I enjoyed the class held in Woodville this weekend. It was packed with information that we can actually use and make money with!!!

Joe was great at teaching all the applications. It was clear and understandable to all. He is really a great instructor. I left excited about Renew-Crete and am right now taking the sink out of my kitchen to put down an overlay on my countertops and acid stain it! I feel armed now with knowledge I did not have before and found that I could have made some serious mistakes if I had not gone to class.

Again, thanks to all your crew that came here to teach us they were all just great! You have a friendly knowledgeable staff and should be very proud of all of them. I would also like to say that the new owners of Renew-Crete of Alabama are great guys too and they were wonderful hosts to us all. I'm personally glad they are here and look forward to working with them.

Best Regards,
Kathy Molizon
Birmingham, Alabama

I just wanted you guys to know that I have been installing Decorative Stamped Concrete for the past 22 years in New Jersey. I have attended many talks and seminars in the past years but have never had one presented by a more knowledgeable and respectful group of guys that gave this seminar. Joe was the best speaker I have ever heard and had answers to all the questions asked regarding your product as it pertained to installation. He left no stone unturned. Your lucky you have him. I have used your competitor's products in a limited way due to the difficulty in working with it and lack of support. I also swore that I would never do business with anyone from Florida again since I have been taken by a few companies in Florida. Feel real comfortable doing business with Renew-Crete. All your team that was at the seminar give off a feeling that they are not only trustworthy but honest to boot.

I Came to learn about installing and was surprised to learn more about marketing. Shawn was great. Great presentation. I learned more about how not to waste my time regarding marketing and specifically TARGET MARKETING.

I have not been this excited about a product in 22 years only when I found out about Stamping. If Renew-Crete overlays can do for me what Stamped Concrete has over these years it will be awesome.

By the way you have a great guy in Guy Ortiz. I have known him for a few years and like me he is honest as the day is long. It's an honor to know him and I look forward to doing business with him in the years to come. I think you will find him a huge asset to the Renew-Crete team.

Respectfully yours,
Ted Mechnick (owner)
Split-Rok Construction Co.

Hi, my name is Tim Byers and I took your class about 2 years ago and people are so happy with the work that I put out. I am just writing to let you know how good your class works, and I've never took a class where everybody will go the extra mile to make sure you get it right the first time. P.S. Tell Joe he is the best teacher I ever had!
Thanks Again,
Tim Byers
